

ShikkuiTM
surface coatings

by  Tagawa Sangyo

SHIKKUI SURFACE COATINGS are a natural lime plaster system for walls and ceilings that achieve a stunning range of traditional and modern finishes, including a full range of Venetian Stucco and stone effects. Customize color and texture for unlimited creative freedom. Shikkui coatings are zero-VOC, non-toxic, and made with up to 50% reprocessed eggshells - a rapidly-renewable, pre-consumer source of high-grade calcium carbonate. The coatings are highly porous and naturally antiseptic, so indoor air quality is actively improved for healthier spaces.

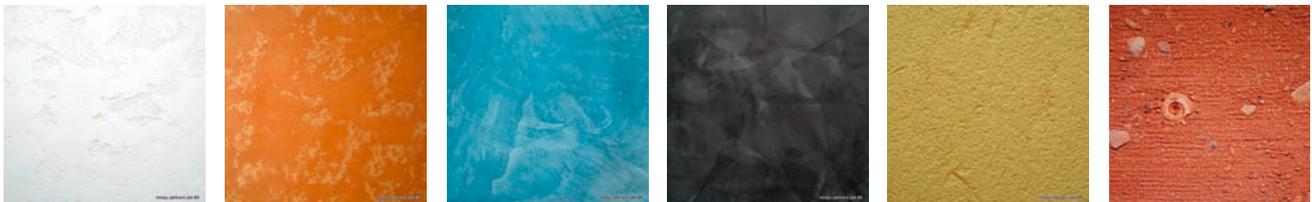

All Shikkui products by Tagawa Sangyo are manufactured in Japan under strict requirements to product quality and human health.

Features

- Natural mineral materials
- Sprayed, rolled or troweled application
- Interior and exterior applications
- Residential and commercial projects
- Excellent workability
- Odor free, zero-VOC, and non-toxic
- Humidity-regulating
- Antistatic and hypoallergenic
- Naturally antibacterial, antiviral, and antifungal
- Up to 50% recycled (upcycled) rapidly renewable content
- Optimized 2-coat system reduces application costs
- Cradle to Cradle certified (Silver)

Textures and Colors

The versatility of Shikkui allows for a variety of rich standard and customized colors and textures.

LEED Credits

Shikkui finishes can contribute toward up to 11 LEED credits in the following categories: Material & Resources, Indoor Environmental Quality, and Innovation in Design. Please refer to LEED statement for details.

ASTM Test Data

The Shikkui Surface Coatings have been tested in accordance with the international ASTM standards by accredited testing laboratories in the United States.

Fire Resistance (ASTM E84) Class A (Type I in other codes)	Mold/Fungal Resistance (ASTM D3273/D3274) Rating 10 (no fungal growth)
Shore D Hardness (ASTM D2240) 61-85 (depending on product)	VOC Content (ASTM D3960) Zero-VOC material

Cradle to Cradle Certified

All Shikkui products are Cradle to Cradle certified (Silver) by MBDC for a higher standard of healthy and environmentally-responsible design. This certification is awarded only to products designed with the health of people and the planet in mind.

Areas of Application

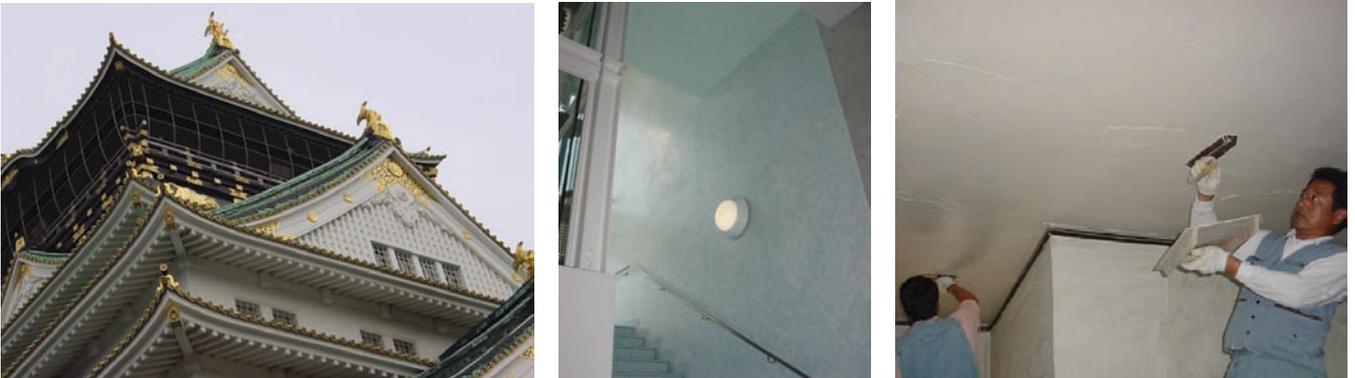

- (Decorative) Interiors

- Exteriors

- Renovation and Restoration

Product Overview

Product Name	Application	Recycled Content	Color Depth	Hardness (Shore D, ASTM D2240)	Scratch Resistance	Texture Type
Shikkui Sora	Sprayed, troweled, rolled	Up to 50%	Up to 20%	61-62	Moderate	Smooth, flat, relief, Venetian, additional aggregates
Shikkui Bright	Troweled	Up to 20%	Up to 10%	70	High	Smooth, flat, relief
Shikkui Kodai	Troweled	Up to 20%	Up to 10%	85	High	Smooth, flat, relief
Noro Matte	Troweled	None	50%	No data	High	Flat
